It's a pretty decent game, crashed after 30 minutes though, later difficulty levels end up being incredibly cluttered but at it's core it's a neat game.. PoE plus retro arcade shooter. For two bucks, it's a must-buy.. Great little game, love theorycrathing games. 10/10, I got the game expecting not much more than Atari's Asteroids just trying to waste \$5 I had, this game delivers amazingly! The effects are very nice as well and I personally think add to the "consolelike" experience.. fun +visuals +soundtrack +music doesn't destroy your ears when opening the game. Very short and takes a bit of getting used to, but definitely gets to the point real fast. Play this if the latest Path of Exile league is a dud.. A nice fun little game.. Great game. Would buy it again.. Amazing game and really cheap.
